## PROFESSIONAL SUMMARY

I have been a professional chef for 15 years and am now switching into a career of Software Development. From my previous Chef career I have developed and mastered certain skills such as leadership, organization, and communication from leading teams of cooks and other chefs. I am a recent graduate of UNLV's Software Engineering boot-camp where I learned Full-Stack Software Development. So far I have 1.5 years experience building full stack applications with Javascript as a primary programming language.

## EDUCATION

---

### University of Nevada Las Vegas

Full-Stack Software Development Certificate

Las Vegas, NV

August 2022

**Coursework:** Back-end Development & API's, React & Redux, SQL & Data Modeling, Programming with Python, Cybersecurity.

## PROJECT EXPERIENCE

---

### Cryptocurrency Watch List | UNLV | [GitHub Link](#)

May 2022

- Designed and led a team to build a full-stack cryptocurrency watch list
- Utilized React.js, CSS3, and React Bootstrap to build a clean user interface
- Created fully functional back-end CRUD routes and API's using Node.js, Express.js, and SQL

### JavaScript Snake Game | UNLV | [Deployment Link](#)

February 2022

- Designed and built a functional browser-based game
- Utilized HTML5, CSS3, and JavaScript to program a classic snake game based on a UX/UI Rick and Morty theme
- Used CSS grid to create game board, and JavaScript module imports to better organize the code layout

## PROFESSIONAL EXPERIENCE

---

### **Kula Lodge & Restaurant, Kula, HI**

June 2022 - Present

*Chef*

- Led a team of cooks and other Chefs through extensive leadership to conduct a smoothly run operation
- Maintained Inventory and supplies ordering to create a clean organized restaurant environment
